

EXTEND SERVICENOW[®] WITH STAVE APPS

WE HELP YOUR BUSINESS

Stave's software extends the ServiceNow platform. Our certified and scoped apps are developed for:

- Procurement & Procure-to-Pay
- Facilities, Fleet & Asset Management
- Operations, Administration & Safety
- Cybersecurity and Risk Management
- ServiceNow UX & Platform Tools

We modernize and automate business functions, processes, information and resources with simple and focused user experiences to increase user adoption and platform championship.

We empower regular users to interact with an organization's digital ecosystem enabling real-time performance, compliance visibility, and a single source of truth.

BUSINESS APPS THAT SIMPLIFY WORK

WE SIMPLIFY YOUR WORK WITH OUR BUSINESS APPS

RAPID DEPLOYMENT // With Stave applications, you are able to get up and running a lot quicker than a traditional ServiceNow custom application or independent software purchase.

SIMPLE CONFIGURATION // No more customization. Stave applications use existing ServiceNow technology so ServiceNow administrators can make needed configuration changes with just a few clicks.

CERTIFIED & SCOPED // All of our applications are scoped and certified by ServiceNow. This means you get managed updates and support included with your purchase. Your application will upgrade when you upgrade.

FULLY-FUNCTIONAL OUT OF THE BOX // Receive full functionality on day one. When Stave Apps are downloaded, they are ready to provide business value immediately. There is no need for complex, costly, or time-consuming customization and coding.

DESKTOP & MOBILE // Mobile phones and tablets are everywhere in your business and Stave apps can be used on any device type, maximizing productivity.

PROCUREMENTPATH

Streamline procurement to accelerate purchasing, manage contracts, optimize spend, manage vendors, and drive value

- Streamline sourcing and purchasing
- Accelerate procurement timelines with automation and guided workflows
- Automate user interactions and collaboration
- Increase efficiency with workflows and task management

ASSETPATH

Optimize asset availability, performance and reliability from acquisition to disposition

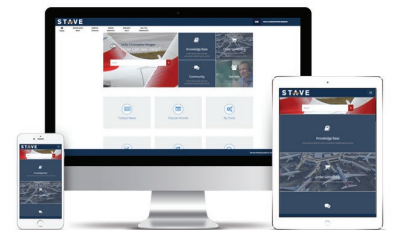

- Increase asset visibility and management
- Increase asset availability and reliability
- Increase fleet availability and lifespan
- Increase warranty cost recovery

OPERATIONSPATH

Run your department as a digital business with automated service delivery and operations

- Increase efficiency with automation
- Reduce administrative workload with self-service access
- Reduce risk with transparency and auditability
- Eliminate bottlenecks with digital collaboration

CYBERSECURITY

End-to-end cybersecurity risk management for compliance automation and management, vulnerability and remediation tracking, workflow, and reporting

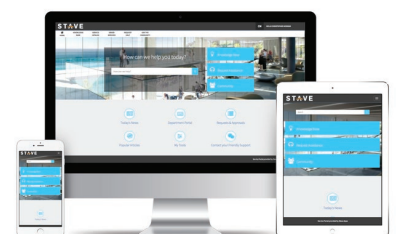

- Increase productivity with automation and streamlined processes
- Make informed decisions regarding security and data protection with greater assurance
- Reduce overall IT and security risk and improve protection posture
- Increase compliance coverage with reduced effort

PORTALMAX

Engaging service portals that provide an extraordinary customer experience

- Accelerate time-to-productivity by rapidly deploying enterprise service portals using templates
- Eliminate barriers to adoption and use with fully responsive designs developed UX experts for all devices
- Sidestep expensive coding projects with a solution that can be customized by ServiceNow administrators
